

Kashif Ali
DevOps Engineer
Lahore, Pakistan

Professional Summary

DevOps Engineer with hands-on experience designing CI/CD pipelines, containerizing applications, and managing

Professional Experience

DevOps Engineer — ZAD Technologies (Mar 2025 – May 2026), Lahore, Pakistan

- Built and maintained CI/CD pipelines using Jenkins and GitHub Actions to automate builds and deployments.
- Containerized applications with Docker and Docker Compose for consistent multi-environment deployments.
- Managed AWS infrastructure — EC2, RDS, S3, IAM, VPC — for reliable application hosting.
- Automated server configuration and deployments using Ansible.
- Set up CloudWatch monitoring and logging for proactive issue detection.
- Troubleshoot build, deployment, and infrastructure issues to minimize downtime.

Key Projects

1. PitchPlaylist — Full-Stack Cloud Deployment | Bitbucket Pipelines, Docker, Amazon ECR, EC2, S3
 - Designed and deployed a full-stack application using Bitbucket Pipelines for end-to-end CI/CD automation.
 - Built Docker images, pushed them to Amazon ECR, and deployed to EC2; hosted the frontend on Amazon S3.
2. Two-Tier Flask Application on Amazon EKS | Flask, MySQL, Docker, Kubernetes, Helm, Jenkins
 - Built and containerized a two-tier Flask application with a MySQL backend using separate Docker containers, pushed to ECR, and deployed to Amazon EKS using Kubernetes and Helm.
 - Deployed the application to Amazon EKS using Kubernetes and Helm, with CI/CD automation through Jenkins and Bitbucket Pipelines.
3. Django Notes App | Django, React, MySQL, Jenkins, Docker
 - Developed and deployed a full-stack application using Django, React, and MySQL.
 - Built a Jenkins CI/CD pipeline and containerized the application with Docker for consistent deployments.
4. Spring Boot CI/CD Pipeline | Jenkins, Maven, AWS
 - Designed a Jenkins and Maven pipeline for automated build and deployment of a Spring Boot application on AWS.
5. Next.js Application Deployment | Vercel, GitHub Actions
 - Deployed a modern web application on Vercel with GitHub Actions integration for continuous deployment.

Technical Skills

- Cloud (AWS): EC2, S3, RDS, IAM, VPC, Route 53, ECR, ECS, ELB, Auto Scaling, CloudWatch, CloudFront, SNS, SSM
- Other Cloud Platforms: Vercel, Fly.io
- CI/CD: Jenkins, GitHub Actions, AWS CodePipeline, AWS CodeBuild, Bitbucket Pipelines
- Containerization: Docker, Docker Compose, Amazon ECR, Amazon EKS, Kubernetes, Helm
- Infrastructure as Code: Ansible, Terraform (basic)
- Monitoring & Logging: AWS CloudWatch, log management tools
- Version Control: Git, GitHub, Bitbucket
- Web Servers: Nginx, Apache
- Scripting: Python, Bash
- Networking: VPC, Subnets, Security Groups, Load Balancers
- Databases: MySQL, non-relational databases

Education

- BS Computer Science — Virtual University of Pakistan
- ICS (Computer Science) — Aspire College, Okara
- Matriculation (Computer Science) — Govt. High School, Okara

Certifications

- AWS Certified Cloud Practitioner — Amazon Web Services
- DevOps Bootcamp — TrainWithShubham
- AWS Zero to Hero — TrainWithShubham
- Computer Networking — TrainWithShubham
- Git & GitHub Certification — TrainWithShubham
- Linux — TrainWithShubham

Languages

- Urdu: Full Professional Proficiency
- English: Working Proficiency
