PROFILE SUMMARY

DevOps & Cloud Engineer with hands-on experience in AWS, CI/CD automation, and infrastructure management. Skilled in tools like Docker, Jenkins, GitHub Actions, and Ansible to build scalable and reliable systems. Currently working on production deployments and cloud automation, with a strong focus on improving system performance and DevOps practices.

KEY PROJECTS

PitchPlaylist – Full Stack Cloud Deployment

- Designed and deployed a full-stack application using Bitbucket Pipelines for CI/CD
- Built Docker images and pushed them to Amazon ECR, then deployed on EC2
- Hosted frontend on Amazon S3 for high availability and scalability

Two-Tier Flask Application on AWS EKS

- Built and containerized a two-tier Flask application with a MySQL backend using separate Docker containers, and published the images to Docker Hub.
- Deployed the application to Amazon EKS using Kubernetes and Helm, with CI/CD automation through Jenkins and GitHub.

Two-Tier Flask Application

- Built a Flask-based application with MySQL database using a two-tier architecture
- Containerized and deployed using Docker with CI/CD integration

Django Notes App

- Developed and deployed a full-stack application using Django, React, and MySQL
- Implemented CI/CD pipeline using Jenkins and containerized the application with Docker

Spring Boot CI/CD Pipeline

- Designed CI/CD pipeline using Jenkins and Maven for automated build and deployment on AWS

Next.js Application Deployment

- Deployed modern web application using Vercel integrated with GitHub Actions for CI/CD

Spring Boot Deployment on Fly.io

- Containerized and deployed Spring Boot application using Docker and GitHub Actions

PROFESSIONAL EXPERIENCE

DevOps & Cloud Engineer — ZAD Technologies

March 2025 – May 2026 | Lahore, Pakistan

- Designed and maintained **CI/CD pipelines** using Jenkins and GitHub Actions to automate build and deployment processes
- **Containerized applications** using Docker and Docker Compose to ensure consistency across environments
- Managed and maintained **AWS cloud infrastructure**, including EC2, RDS, S3, IAM, and VPC
- **Automated server** configuration and application deployment using Ansible
- Monitored system performance and implemented logging solutions for proactive issue detection
- Troubleshoot build, deployment, and infrastructure-related issues to ensure smooth operations

Professional Skills

- Hands-on experience with **AWS Cloud** services including EC2, S3, RDS, IAM, VPC, Route 53, ECR, ECS, ELB, Auto Scaling, CloudWatch, CloudFront, SNS, SQS, Lambda, API Gateway, and Secrets Manager.

- Experience building and managing **CI/CD pipelines** using Jenkins, GitHub Actions, AWS CodePipeline, AWS CodeBuild, and Bitbucket Pipelines.
- Proficient in **containerization** using Docker, Docker Compose, and Amazon ECR.
- Knowledge of **Infrastructure as Code** (IaC) using Ansible, Terraform (basic)
- Experience with **monitoring and logging** using AWS CloudWatch and log management tools.
- Strong understanding of **version control** using Git, GitHub, and Bitbucket.
- Experience configuring and managing **web servers** including Nginx and Apache.
- Basic scripting knowledge in **Python** and **Bash** for automation tasks.
- Good understanding of **networking concepts** including VPC, Subnets, Security Groups, and Load Balancers.

EDUCATION

BS Computer Science — Virtual University of Pakistan

ICS (Computer Science) — Aspire College, Basirpur, Okara

Matriculation (Computer Science) — Govt. High School Basirpur, Okara

CERTIFICATIONS & TRAINING

Certification / Training	Provider	Credential ID
DevOps Bootcamp	TrainWithShubham	XVVFJMP
AWS: Zero to Hero	TrainWithShubham	V5RLBDVE
Computer Networking	TrainWithShubham	WZETW0MH
Git & GitHub Certification	TrainWithShubham	SQJM58H5
DevOps & AWS Program	Udemy	
DevOps Training	YouTube (Self-Learning)
